Professional Summary

Full-Stack Developer skilled in Python, Django, Django REST Framework, React.js, and Next.js, with experience building responsive web applications and RESTful APIs. Proficient in JavaScript, TypeScript, Tailwind CSS, Bootstrap, Django ORM, PostgreSQL, and MySQL, with hands-on experience in authentication, API integration, reusable components, and mobile-first UI development.

Professional Experience

Python Full Stack Developer Intern, Febno Technologies

03/2026 – 04/2026

Malappuram

- Developed and maintained full-stack web applications using Python, Django, and React.
- Designed and implemented RESTful APIs for secure communication between frontend and backend systems.
- Built and managed database models using Django ORM and optimized SQL queries for better performance.
- Implemented user authentication, form validation, and CRUD operations in web applications.
- Debugged and resolved software issues to improve application performance and stability.

Frontend Developer, Woxly

08/2026

kozhikode

- Developed and maintained a modern, responsive e-commerce storefront using Next.js, React, TypeScript, and Tailwind CSS.
- Built reusable UI components for product listings, product details, shopping cart, checkout, account pages, banners, and promotional sections.
- Integrated REST APIs to fetch and display dynamic product data.
- Implemented responsive, mobile-first layouts with a focus on usability and conversion-focused UX.
- Improved website performance, accessibility, SEO, and responsive behavior across desktop, tablet, and mobile devices.
- Implemented reusable architecture to support scalable e-commerce features and future customization.
- Collaborated on UI/UX improvements and translated design requirements into production-ready interfaces.

Projects

E-commerce Platform Live, Client Project/Live / E-commerce / Frontend Development

- Developed a modern grocery, fashion e-commerce storefront for Woxly, a real-world business.
- Focused on building a responsive shopping experience, implementing reusable UI components, integrating product data, and creating an intuitive interface for online shopping.

Property Management & Rent Collection Portal

- Developed a full-stack property management and rent collection platform using React, Django REST Framework, and PostgreSQL.
- Implemented landlord and tenant management, rent tracking, lease handling, and role-based authentication with secure REST APIs.
- Designed a responsive dashboard interface for managing properties, tenants, payment records, and rental activities.

Job Portal Application

- Built a full-stack job portal with separate user and admin dashboards.
- Implemented job search, application submission, and job management features.
- Developed secure authentication and responsive user interfaces.
- Created RESTful backend functionality for managing jobs and applications.

User Authentication System with Google OAuth

- Integrated secure Google OAuth authentication using Strapi and JWT-based authentication.
- Implemented protected API access and connected frontend login flow with backend authentication services.
- Improved user onboarding experience through seamless social login integration.

Ride Booking Platform

- Developed a full-stack ride-booking web application using React, Django REST Framework, and PostgreSQL.
- Implemented JWT and Google OAuth authentication for secure user access.
- Built dedicated dashboards for users, drivers, and administrators with role-based access control.
- Integrated pickup and destination selection, fare estimation, and ride management features.
- Implemented online payment processing and trip history tracking.
- Developed RESTful APIs for seamless communication between frontend and backend systems.

Education

Python Django Full Stack Development, <i>Technodot Academy Of R&D&I</i>	08/2025 – 04/2026 Malappuram
Bachelor of Commerce, <i>University of Calicut</i>	2022 – 2025 Malappuram

Technical Skills

Programming Languages

Python, JavaScript, TypeScript, C

Backend Development

Django, Django REST Framework (DRF), RESTful APIs, ORM, API Integration, strapi

Tools & Technologies

Git, GitHub, GitLab, Razorpay API, Version Control

Frontend Development

React, Next.js, JavaScript, TypeScript, Tailwind Css ,Responsive Web Design, UI/UX

Databases

PostgreSQL, MySQL, SQLite

Core Concepts

Object-Oriented Programming (OOP), CRUD Operations, API Development, Authentication & Authorization, Debugging
